

WARD HONORS AT SHOW IN RUSSELLVILLE

DAIRY CATTLE PRIZES WON BY
NICHOLSON'S AND BOESSEN'S
MAINLY

HELD OPENING DAY

In Beef Cattle Division Honors Were
More Widely Distributed;
Ribbons Awarded

At the cattle show of the Russellville fair, held the opening day, the Jerseys of Noel Nicholson, of Bainbridge, won the most honors in the dairy cattle division, with the Holsteins of the Boessen farm south of Greencastle figuring prominently.

In the beef cattle division, Short-horns and Herefords were the top notchers. Honors in this division were more widely distributed than in the dairy cattle awards. Longden and Clodfelter won a number of ribbons with their Shorthorns and Edward Clodfelter of Russellville and others had winners with their Herefords.

The following awards were taken from the records kept by D. B. Inge, secretary of the cattle show:

CZECH HUSBAND HELD AGAINST POSSIBLE SUICIDE

CHICAGO, Aug. 5.—(UP)—Karel Langer, broken-hearted Czechoslovakian refugee, was guarded against suicide today as his countrymen prepared a burial of silence for his wife and two sons whom they hailed as martyrs to their fallen homeland.

Police, fearing Langer would carry out a threat to kill himself, had kept him in custody since Thursday night when his wife, Adele, 43, jumped from a 13th floor hotel window with their sons, Karel Thomas, 6, and Jan Mlacha, 4. They released him to the custody of two friends yesterday after a coroner's jury had found that the refugee mother had killed herself and sons while temporarily insane due to "persecution."

The family fled only a month ago from Prague where Langer had owned a thriving textile manufacturing plant and a department store. He and his wife were Jews. He testified at the inquest that his wife had brooded over their misfortunes, had feared she would have to leave the United States, and had threatened frequently to kill herself and the children.

SECOND DAUGHTER BORN TO ROYALTY

SOESTDIJK, NETHERLANDS, Aug. 5 (UP)—Netherlanders declared a holiday today to celebrate, amid the bombing of guns, the birth of a second daughter to Crown Princess Juliana—an event which increased the prospect of a three-generation reign by Queens of the house of Nassau.

Princess Juliana presented her German born husband, Prince Bernhard, with a 8 1-2 pound girl at 1 a. m. today. The first daughter, Princess Beatrix, second in line for succession to the throne of Queen Wilhelmina, was born Jan. 31, 1938.

Fine Horses On Exhibition

RUSSELLVILLE SHOW BROUGHT
OUT BEST HORSE FLESH IN
PUTNAM COUNTY

Interest was keen in the horse show at the Russellville fair, these animals being as popular as ever with the farmers and other residents of northeast Putnam, notwithstanding the inroads made among the ranks of the farm horses by mechanical power.

Records of Ralph McGaughey, secretary, showed the following awards, in part:

Draft stallion, 4 years and over—1, Curtis & Cox, Tangier; 2, Albert Petcock, Waveland; 3, Harry McCabe, Greencastle.
Draft stallion, 3 years and under 4—1, Charles Myers, Waynetown.
Heavy draft mare, 3 years and over—1, James Foxworthy, Crawfordville; 2, Emerson Baker, Tangier; 3, Boyd & Grimes, Russellville.

Cloverdale To Get New Postmaster

REUBEN STWALLY RECOMMENDED FOR PLACE, SAYS
WASH. ANNOUNCEMENT

Announcement was made in Washington Saturday of the recommendation of Reuben S. Stwally, a Warren and Cloverdale township school teacher, for postmaster at Cloverdale. He will succeed William Morrison, who is finishing his four year term.

The vacancy was declared some time ago as existing and an examination was called for. A dozen candidates took the tests and it was reported Stwally was at the head of the list.

POLICE BLOCK ROADS

FORT WAYNE, Ind., Aug. 5.—(UP)—Police blocked all roads near here today in an effort to capture two armed bandits who held up and robbed two Van Wert, O., filling stations this morning and escaped in a running gunfight.

Authorities said one of the men may have been wounded in the exchange of shots. The bandits were reported armed with a sawed-off shot gun.

Their total loot in the two robberies was \$66.40, police said.

PENAL FARM FUGITIVE

CAUGHT AFTER 8 YEARS
Joe Border, 42 years old, who escaped from Indiana State Farm 93 days after he was sentenced in 1931, was returned to the institution from Richmond, Friday.

He was arrested on a farm south-west of Centerville, where he had been employed the last nine months. Border was fined \$200 and sentenced to serve one year on the penal farm after he had been found guilty in Fayette Circuit Court of carrying a deadly weapon.

Test Lewis' Power In State Politics

LOUISVILLE, Ky., Aug. 5 (U.P.).—Labor leader John L. Lewis strength in state politics was put to another test today as Kentucky democrats and republicans went to the polls to select candidates for state officers in the first of the "off-year" primaries.

Lewis, president of the Congress of Industrial Organizations, supported John Young Brown, Attorney for his United Mine Workers affiliate in Kentucky, to defeat Lieut. Gov. Keen Johnson, backed by retiring Gov. A.B. (Happy) Chandler and the powerful state democratic organization.

Congress Will Adjourn Today

LAW MAKERS READY TO GO
HOME UNLESS UNEXPECTED
DEADLOCK COMES UP

WASHINGTON, Aug. 5.—(UP)—Congress adjourns today, barring unexpected developments, after seven months session marked a rebellion against President Roosevelt and a spending record of \$13,000,000,000.

House action on the Social Security amendments followed 20 days of deadlock in conference over a proposal to increase federal grants to states for old age pensions for "low income" states. As drafted the amendments will ease payroll taxes, boost benefits to the aged, and advance the date for increasing payroll taxes for old age insurance.

Most of last night's Senate session was devoted to a fight over more money for the LaFollette committee. Sen. Hiram W. Johnson, R., Calif., led the opposition. He charged the money was for a "fishing expedition" and that the committee sought to smear California farmers who, he said, were "honest gentlemen."

For all practical purposes this Congress ended Wednesday when the House jinked for this session President Roosevelt's request for a multi-billion dollar lending program to stimulate business recovery.

That program precipitated bitter debate over the administration's policies of spending for recovery and resulted in a victory for a coalition of Republicans and anti-New Deal Democrats.

Before refusing even to consider the program, however, Congress appropriated more than \$13,000,000,000 for the fiscal year 1940—nearly \$500,000,000 above the amount requested by the bureau of the budget to run the government until next June 30, 1940.

Major items included \$1,194,000,000 for the Agriculture Department and the crop program, more than \$2,000,000,000 for defense, \$1,750,000,000 for relief.

Doctor Loses Baby He Tried To Save

NEW ROCHELLE, N.Y., Aug. 5 (U.P.).—Harold Holt Jr. two years old, was lost today to medical science which took him when it appeared that he had only two more weeks to live, and kept him alive almost five months.

The child died last night at the hospital here where Dr. Alexander J. Chliko, using a new method in DeDep Therapy Treatment, had almost cured him of Wilm's Tumor, a Kidney growth occurring in infants and usually fatal.

An intestinal obstruction was given as the cause of death.

JAPS DEMOLISH MISSION HOME

SHANGHAI, Aug. 5 (U.P.).—Chinese dispatches asserted today that Japanese troops at Yochow forced American and British Missionaires to evacuate a church which they then demolished.

20 Years Ago IN GREENCASTLE

The board of county commissioners set September 30 as the date of the election on the issuing of \$75,000 bonds for a county hospital.

Misses Jean and Glen Hamilton, daughters of Mr. and Mrs. Fay Hamilton, went to Augusta, Ky., to visit friends.

Miss Margaret Maloney, of the Hamilton Book Store, was taking her vacation.

NOUNCEMENT

EVERYTHING IN READINESS

School Buildings and Grounds Will
Be In Shape and Teaching Places
Are All Filled

On Monday, September 11, the students and teachers of the Greencastle public schools will again return to books and recitations for the school year of 1939-40. This announcement was made today by Paul F. Boston, superintendent. Other announcements include the following:

The first recess for the students will come on October 25 when all the teachers and supervisors will attend the State Teacher's Association meeting in Indianapolis on Thursday and Friday. The next vacation following will be on November 22 when at the end of the school day, the schools close for the remainder of the week to celebrate Thanksgiving. Schools are dismissed for the Christmas vacation on December 20 to reconvene on Monday, January 1, 1940. The first semester will end on Friday, January 19.

The long vacation-less stretch between Christmas and summer vacation will be broken by a short Spring vacation which begins on Friday, March 20th and ends the following Monday.

The school term ends on Friday, May 31.

Interprets Law On Hospitalization

ATTORNEY GENERAL'S OFFICE
SAYS CIRCUIT JUDGE HAND-
LES CASES

The office of the Attorney General, has issued an interpretation of the law passed by the 1939 legislature regarding the hospitalization of indigents. This law takes away from the trustees, the authority to handle these cases and places them under the jurisdiction of the circuit judge.

The opinion, in part says:

"This law has as its general purpose the setting up of machinery to take care of adults, that is, persons over sixteen years of age, who may require treatment that can well be furnished by some of the hospitals, such as Coleman, which are under the management of the Trustees of Indiana University. The judge of any court in the state is given authority under the act and is empowered to commit any person over sixteen years of age, who has actually resided in his county for a year, to such hospital for treatment. This commitment can only be carried out under the following conditions:

"1. The applicant must not be suffering from a chronic malady or a permanent deformity.
"2. The applicant must not be financially able to defray the necessary expenses for such treatment.
"3. The applicant must actually have resided or lived in the county for at least a year prior to his application.
"4. Any citizen may file a petition for such commitment before the judge.

"If all the above requirements are met by the applicant, the judge must hold a public hearing with the prosecuting attorney of the county in attendance and the judge may, in his discretion, have such applicant examined by one or more reputable physicians who must file with the clerk of the court a written report of their examination. If, after the hearing, the judge finds that the applicant is a proper subject for treatment and actually authorizes the commitment of the applicant to a hospital, the clerk of the court is under a duty to carry out the details of making application forms for the hospital and providing for the transportation of the applicant to the hospital, and other details.

"I wish to point out that all the costs of such a proceeding shall be paid from the county treasury through the medium of the county treasurer reimbursing the state treasurer for his payment upon a hospital's certified statement of the cost.

"The latter sections of the act refer to the placement of crippled persons.

2 PRIESTS HELD BY JAPANESE

SHANGHAI, Aug. 5 (U.P.).—Plain clothes operatives of the Japanese-dominated Provisional Government have seized two priests of the American Catholic University of Peiping, a united press dispatch disclosed today.

JAP NEWSPAPER SUGGESTS MILITARY ALLIANCE AT ONCE

TOKYO, Aug. 5.—(UP)—Kokumin, extreme nationalist newspaper which enjoys a wide circulation among military groups, gave guarded expression today to the army demand that Japan enter a military alliance with Germany and Italy at once.

Discussing the army's drive for "enlarged" European connections, the newspaper said:

"It is the army's view that although great importance is attached to British-Japanese negotiations, practical measures to deal with the European situation should not be hampered by parleys and materialization of European policy must be made adequately and independently. Further, the army even has expressed the view that adequate materialization of European policy would actually facilitate the British-Japanese negotiations."

The editorial was taken as an additional indication that the Japanese ambassadors to Germany and Italy, in announcing that they had met to discuss Japan's adherence to the German-Italian military alliance were acting, if on any authority at all, in co-operation with military authorities and not in behalf of the government as a whole.

STATE HIGHWAY SYSTEM
TRIPLES MILEAGE SINCE 1920

While Indiana's state highway system has tripled in mileage since 1920, the mileage of high-type surface is five times as great now as it was 20 years ago, T. A. Dicus of the State Highway Commission, pointed out today.

When the original state highway system was established, it included 3,191 miles of roads. At the first of the present year the State Highway System included over ten thousand miles of roads, an increase of more than 300 percent in mileage.

In the first state highway system, there were 1,034 miles of high type surface and 2,156 miles of intermediate and low-type surfaces. Now there are 5,639 miles of high-type surface and 3,981 miles of intermediate and low-type surfaces. This represents a 500 percent increase in the mileage of high-type surface with an increase of less than 200 percent in the mileage of intermediate and low-type surfaces.

Two of the interesting comparisons between the original state highway system and the present system are provided in the mileage of cement concrete and gravel roads. In 1920 there were 96.7 miles of roads in the state system surfaced with cement concrete; today there are 4,217.5 miles of cement concrete roads in the state highway system.

On the other hand, in 1920 there were 1,762 miles of gravel roads in the state highway system, while today there are but 320 miles of gravel roads in the state highway system. In 1920 there were 230 miles of earth roads marked as state highways but today there are not roads of this type in the system.

These comparisons indicate, Mr. Dicus pointed out, the progress which Indiana has been making in the development of a modern state highway system. In 1920 less than 33 percent of the state highway system had a high-type surface while now nearly 60 percent of the total mileage has a high-type surface. Aside from the improvement in highway surfaces, constant improvement has been made on the system by eliminating sharp curves and grades, widening the surface and the convenience and safety of motorists using the state highways.

Aside from the improvement in highway surfaces, constant improvement has been made on the system by eliminating sharp curves and grades, widening the surface and the convenience and safety of motorists using the state highways.

These comparisons indicate, Mr. Dicus pointed out, the progress which Indiana has been making in the development of a modern state highway system. In 1920 less than 33 percent of the state highway system had a high-type surface while now nearly 60 percent of the total mileage has a high-type surface. Aside from the improvement in highway surfaces, constant improvement has been made on the system by eliminating sharp curves and grades, widening the surface and the convenience and safety of motorists using the state highways.

SOS WITHIN APPLE

LONDON (UP)—A hurriedly written SOS message stuffed inside an apple and thrown from a train saved the life of Joseph Smith, 19, of Aldershot Barracks.

The young soldier, a passenger on a fast non-stop London express, became critically ill. He was saved by the cool thinking of George Lofthouse, who thought of the apple.

The apple was picked up by a signalman at Sutton, who phoned into St. Pancras station, an ambulance was waiting.

A BIBLE THOUGHT FOR TODAY

Only spiritual riches endure: Then I looked on all the works that my hands had wrought, and on the labor that I had labored to do: and, behold, all was vanity and vexation of spirit, and there was no profit under the sun.—Ecc. 2:11.

children under the jurisdiction of the Department of Public Welfare and do not immediately touch upon the questions outlined in your letter.

"In your request for an unofficial opinion, you state that the medical profession is especially interested in knowing whether or not it is discretionary or mandatory on the part of the court to make such commitments as are contemplated under the act. I call your attention to the pertinent language of Section 2 of the act, a part of which is here quoted:

"... If such judge finds, on the hearing, that such person is a proper subject for treatment in such hospital, and commits such person thereto, the judge shall cause the clerk of the court to make an application for the admission of such person to the hospital on a form to be furnished by the hospital."

"The above language does not require interpretation. It is obvious that the judge has complete discretion to do two things: namely, (1) to determine whether or not the applicant is a proper subject for treatment; and (2) the power to commit or not to commit such applicant to the hospital, regardless of the court's determination of the question whether or not the applicant is a proper subject for treatment. Thus, it is seen that the discretion of the court is unlimited. He may find the applicant not a proper subject for treatment, in which case the application or petition is, in effect, denied. The judge may find the applicant a proper subject for treatment but may deem it advisable to recommend his treatment in a local hospital or in any county institution in the care and charge of the officials of the city or town or the township trustee, as the case may be. Or, finally, the judge may find the applicant a proper subject for treatment and exercise his authority to commit the applicant to a hospital under the management of the Board of Trustees of Indiana University as provided for in the act.

"In summary, I should say that this is a voluntary law which simply empowers courts to commit indigents in need of medical care to a state hospital when the court, in the exercise of his discretion, deems such a course advisable."

DIVORCES RISE IN CANADA
OTTAWA (UP)—The steady increase of divorce in Canada is attracting the attention of sociologists and statisticians here. The figures steadily mount. In 1918, there were only 114 divorces in all the country. In 1928, the figure had risen to 783 and in 1938, to 1,883.

Boston Home Has Many Fine Features

RECREATION ROOM, BREAKFAST ROOM, DEN AND MANY CLOSETS AMONG THEM

Of Modified Colonial architecture and designed by Joe Morris, architect of the Allan Lumber Company, the home of Paul Boston on Hillsdale avenue will be another attractive addition to that suburban residential district of the city.

As one looks at the property from the avenue they will notice a driveway which encircles the house and enters the garage at the rear. The house itself will be of red brick veneer on the first story and the second story will be wide white colonial siding. The roof will make a pleasing contrast to the white upper story as it will be blue-black asbestos cement. The entrance, at the left of the house, is true Colonial style and patterned after one of the doorways on a restored house at historic Williamsburg.

As one enters the house they will find a coat closet on the left and beyond it a stairway. On the right is the entrance to the living room which is 15 by 24 feet and faces southwest. The walls in the living room as well as in all the rooms on the first floor will be a smooth plaster finish. The living room will have a fireplace, a den and lavatory as well as three closets.

The kitchen will be equipped with the latest style cabinets. A 7 by 9 1/2 breakfast room is adjacent to the kitchen and one can go from there to a small service porch in the rear.

On the first floor there will also be

ATTIC SPACE FOR GUEST ROOMS

Vacation visit usually are reciprocal. The average family visits friends and relatives who generally return the visits. The result is that practically all homes find need for one or more guest rooms which will be available without changing the sleeping quarters of the children and making the family uncomfortable.

Many homes have space in the attic which can easily be made into one or two guest rooms. Often a bathroom can be added. It is comparatively simple and inexpensive to cover the attic joists and rafters, and install one or more partitions. An attic room can be used by the children as a playroom when not in use, or it can be combined into sleeping quarters and playroom for the children, thereby making the room they have been using in the home available for guests.

WOOD AND BRICK HOMES PREDOMINATE

On almost two-fifths of the new homes given as security for FHA-insured mortgages in 1938 wood was used as the material of exterior construction, and the great bulk of these were of clapboard. Brick homes were also numerous, three-tenths of the new-home total. These were mostly brick veneer. Stucco, singly or in its several combinations, constituted the third most important exterior material with a total of one-fifth of all new homes.

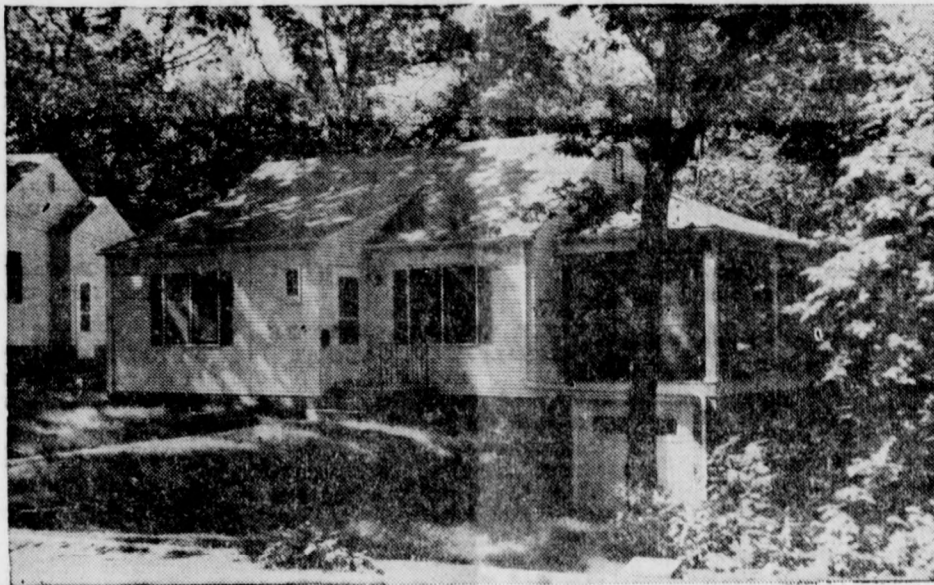

a den and lavatory as well as three closets.

The second floor will have three bedrooms and a bath. Seven closets and a cedar closet as well as a storage room will complete the plans for the upstairs. The master bedroom is 13 by 16 1/2 feet and there will be a long bedroom in the rear of the house as well as a guest bedroom.

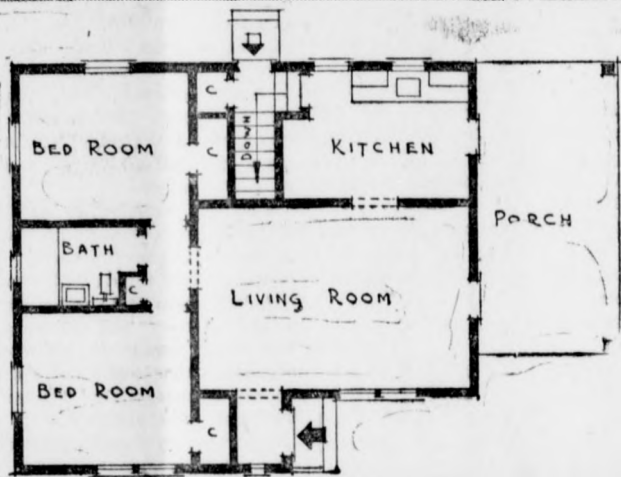

The basement has the garage, laundry room, a bin fed stoker with a winter air conditioning furnace and a recreation room. The recreation room is 15 by 30 feet and has a massive fireplace of rustic stone at one end. The walls are of knotty pine panelling and it will be one of the rooms much used in the house.

The house is being built just next to the home of Gene Allan which has just been completed and moved into.

Model For Minimum Means

This small home, containing two bedrooms, living room, and kitchen, illustrates how comfortable living quarters may be obtained in the minimum-cost field. Assigned a valuation of \$4,250 by the Federal Housing Administration, the home was built with a mortgage of \$3,800 insured by the FHA. Monthly payments on this attractive house amount to only \$23.46, exclusive of local taxes and hazard insurance.

LINOLEUM CUTS BREAKAGE COST IN KITCHENS

Linoleum, once confined chiefly to floors, has branched out in the home and is now regarded as an attractive and practical surface for sink tops and drain boards. Because of its resiliency, it reduces clutter and retards breakage of dishes.

Eligible for installation under the Modernization Credit Plan of the Federal Housing Administration, linoleum may be used to restore life to many efficient but drab and discolored sinks. On drainboards or other areas where water is spilled or splashed, the success of the installation depends almost entirely upon the quality of workmanship in making the seams and edges tight and waterproof.

VALUED LESS THAN \$5,000

Over two-fifths of the new single-family homes on which the Federal Housing Administration placed mortgage insurance in 1938 were valued at less than \$5,000, over four-fifths at less than \$7,000, and only 2 per cent at \$12,000 or more.

NO PLANS

The Federal Housing Administration does not furnish plans or specifications of any of the houses shown in the clip sheet.

HINTS FOR HOME OWNERS

"Second" Bathroom

The "second" bath in a small home is often a desirable thing, but it frequently offers a problem because of lack of space.

One possible solution is elimination of the tub and installation of a shower stall. A complete bathroom, with shower in place of tub, can be contained in a space as small as five feet square, with favorable window arrangement. The Modernization Credit Plan of the Federal Housing Administration makes possible such additions to the home, the funds being obtainable from qualified lending institutions.

Radiator Shelves

Book shelves can be made to conceal unsightly radiators.

The shelves should be the same height as the radiator, and when possible the bookshelves should extend across an entire wall. When the radiator is at one end of the wall, a cupboard may be built at the other end for balance. One row of books above the radiator will conceal it further. Funds for this work may be obtained from qualified lending institutions under the Modernization Credit Plan of the Federal Housing Administration. Such shelves decrease the convection of heat. Unless the heat output of the radiators without the shelves is more than sufficient to heat the room adequately, shelves should not be installed.

Cold Floors

Cold floors are an indication of excessive heat leakage in the basement. If the owner is sure that the windows fit well and are closed, steps should be taken to locate the source of leakage.

Some effective insulation may be applied to the bottom of or between the joists of the first floor, thereby reducing the heat loss there.

Plaster Repairs

Cracked, loose, or stained plaster on other wall and ceiling coverings should be repaired as quickly as possible to prevent further damage. The average home owner should consult a good plasterer or builder before making the repairs, for in attempting to do the work without knowledge of plastering he may increase the damage.

The underlying cause of such cracks should be ascertained and the condition remedied before repairing the plaster, in order to keep the cracking, etc., from recurring.

AVERAGE BUYER HAD INCOME OF \$3,069 IN 1938

The average borrower in 1938 under the Federal Housing Administration plan of home-mortgage insurance had an annual income of \$3,069 and bought a property valued at \$5,447, or 1.8 times his income.

In the same year the net monthly mortgage payment (which covers interest, principal, and mortgage insurance only) of the average FHA-plan borrower was \$29.72, or 11.6 per cent of his monthly income.

5-Room Houses In Majority

Almost half of the new homes accepted for Federal Housing Administration insurance in 1938 were five-room houses, it is shown in a report of the FHA activities for the year.

Other interesting construction trends revealed in the report were:

Four out of five new homes securing FHA insured-mortgages had garages.

Three in 10 properties had garages of two or more car capacity.

Over nine tenths of the new homes contained four to six rooms, and less than 1 per cent had more than eight rooms.

The average new single-family home accepted for insurance was valued at \$5,530 and was built on land valued at \$785.

On two-fifths of the new homes wood was used as the material of exterior construction.

Brick homes accounted for three-tenths of the new-home total, most of which were brick veneer.

Stucco, singly or in its several combinations, constituted the third most important exterior material with a total of one-fifth of all new homes.

"SMALL TOWNS" LEAD IN HOME MORTGAGES

Of the 150,000 mortgages accepted for insurance in 1938 by the Federal Housing Administration, slightly over 40 per cent were in cities of 100,000 or more population, while the remainder were about evenly divided between the environs of these larger cities and the smaller cities, towns, and rural areas located elsewhere.

Simpson Stoner Home Being Built

EARLY ENGLISH BRICK VENEER HOME AT SEMINARY AND BLOOMINGTON

On the northwest corner of Bloomington and Seminary there is a charming Early American brick veneer home being erected for the residence of Mr. and Mrs. Simpson Stoner.

The home sets on a slight rise so that it will have privacy from passers and there is sufficient ground that there will be room for a convenient sized garden.

The front of the house will face east. The walls will be dark blended brick veneer with white mortar and the roof will be red cedar shingles. On the east face there will be a cement terrace with a slab door at the entrance to the house. The doorway will probably be recessed. On the left of the entrance there will be a bay window, this being the east end of the living room.

As one enters the house they will find a vestibule with a doorway on the left, or south, as an entrance to the 22'x15'6" living room. The living room will have rough plaster, sand finished walls.

To the right, or north, of the vestibule will enter the dining room.

At the back or west end of the vestibule there is a hall leading to the den which is a good size and has a bathroom off it. The den is in the southwest corner of the first floor.

On this same floor there is also a kitchen and closet space.

The second floor will have two bedrooms and a bath. The bathroom will be very modern with both a tub and shower stall.

In the basement there will be a utility room, laundry, store room and heater room.

The window casements throughout the entire house will be steel and they will be set in the wall.

The material for the Stoner house is being supplied by the Metzger Lumber Company and Pitts Brothers are the contractors.

About 7 per cent of the total were in towns of less than 2,500 population that were also outside of the 96 metropolitan areas.

IN MEMORY

In loving remembrance of our dear mother, Mrs. Lily Bennett Varvel who departed this life one year ago today, August 5, 1938.

You have left us, darling mother, You are on our Father's bosom,

In the realms of endless day, Yes, we know you are in heaven,

But the tears unbidden start, For we've lost our earthly treasure,

Cherished idol of the heart, They were waiting by the river—

Angels robed in spotless white, And they gently bore her over

To that shore where all is light, 'Twas but one year ago she left us,

For that happy land above, By the white throne she is waiting

For the promises of love, One more angel is in heaven

With a heart of purest gold, Singing praises to the Savior

With a joy, earth never told, Shall we meet you, darling mother?

We will ask our God in prayer, With His helping hand to aid us

We will meet our mother there, Sadly missed by the Bennett Children.

IN MEMORY

In memory of our mother, Rachel Grimes Monday, who passed away 4 years ago today, August 5.

We'll meet you, Dear Mother, In Heaven some day;

That fair home so Beautiful and true,

When our troubles and trials, Have all flown away,

We'll be living In Heaven with you.

Micky Walker, former world middleweight and welter weight champion, has agreed to fight and exhibition in Indianapolis at the outdoor sports arena August 10th. The tilt is a four round affair and Lou Thomas, rugged Indianapolis mauler, has been picked as the opponent for the flashy past master of leather tossing.

Thomas is considered heavyweight champion of Indiana, however, the Hoosier has not had a battle for eighteen months due to an illness. McClure states that Thomas has fought some of the top-notch heavies of the country and should make the scrap prove interesting. Thomas is twenty-two years old and has fought several high ranking boxing stars.

Walker is to tour the mid-west seeking the best of the heavyweights to find material for a promising "white hope." He will take the best boys he finds back to California and train them.

WALKER AGREES TO FIGHT IN INDIANAPOLIS

Micky Walker, former world middleweight and welter weight champion, has agreed to fight and exhibition in Indianapolis at the outdoor sports arena August 10th. The tilt is a four round affair and Lou Thomas, rugged Indianapolis mauler, has been picked as the opponent for the flashy past master of leather tossing.

Thomas is considered heavyweight champion of Indiana, however, the Hoosier has not had a battle for eighteen months due to an illness. McClure states that Thomas has fought some of the top-notch heavies of the country and should make the scrap prove interesting. Thomas is twenty-two years old and has fought several high ranking boxing stars.

FIRST ROUND
OF SOFTBALL
TOURNEY OVER

BRAZIL AND PLAINFIELD TAKE
FIRST TWO, COKEA WIN
LAST GAME

BAINBRIDGE LOSE HARD GAME

The first round of the softball sectional tournament was finished off last night at the Robe Ann Park diamond when teams met to be eliminated down to three.

In the first game of the evening Bainbridge met the Bedwell Tire team of Brazil to lose a hard game in the seventh inning.

Bainbridge had taken an early lead when in the first inning they scored three runs. In the third Bedwell came up for two points and then, in the last half of the sixth, McDonald hit a hard one into right field to get a triple. A single by Boyer brought home McDonald to tie the score at three all.

Spectators received a thrill when Boyer hit his single. Two errors on the rightfielder and one on the shortstop got Boyer two more thrilling bases.

Bainbridge ended the first half of the seventh with the score still tied when Ferry, the Bedwell shortstop, hit a nice ball out to left field to score a home run and win the game for Bedwell.

Other extra base blows were garnered by Reifenberg of Bedwell, a double and Whitaker of Bainbridge, a double.

Score by innings:

	R	H	E
Bainbridge	3	0	0
Bedwell Tire	0	0	2
Batteries:	Ousler and Dickson;		
Hunt and Barr.			

In the third game of the evening Plainfield met Fillmore to take an easy victory from the Putnam county lads.

Plainfield's first man up, Pope, hit the ball way out into right field to score a home run. In rapid fire succession Smith hit a triple to bring in a man, Bayliff hit a double to bring in another, and so on round the circuit until, at the end of the first half of the inning there were 9 hits with 13 runs and 5 errors. In the one inning Smith had made both a triple and a double, Pope a homer and Bayliff a double.

The game only went five innings as Fillmore, with many errors, couldn't close up the wide gap.

The only other extra base hit was a homer by Babb.

Score by innings:

	R	H	E
Plainfield	13	4	0
Fillmore	1	0	0
Batteries:	Pike and Glean;		
Hammond and Goldsberry.			

Another slaughter took place in the third game when the Brownsburg Ward's All-Stars met the local Coca Cola team.

The All-star team opened the game but went down in rapid succession one, two, three. Coca Cola came up to take an early lead with four runs. Without any trouble, scoring four runs in each of the first three innings, the Coca Cola lads took the game.

Extra base blows were gotten by Myers, a double, Miles, a homer and Hamm, a triple, all of Coca Cola.

Score by innings:

	R	H	E
Ward's All-Stars	0	0	0
Coca Cola	4	4	2

Sectional Meet
Ends Sunday

WINNER WILL GO ON TO REGIONAL; FINAL GAME AT EIGHT

Greencastle's sectional softball tournament will end this week-end with the final game to determine the winner of this section taking place at 8:00 p. m. Sunday.

The play-off will start this evening, Saturday, at 7:30 when the Lone Star team meets the Hadley Band Box lads of Danville. At 8:30 there will be another game, this will be between the Beverly Theater team of Brazil and the Bedwell Tire ten, also of Brazil. The winner of these two games will play off to see who plays in the final elimination at 3:00 p. m. Sunday.

Plainfield and Coca Cola will play off their game to see who plays the winner of the 3:00 o'clock game above at 1:30 Sunday afternoon.

A big crowd is expected for both of the afternoon and evening games. Before the game to determine the sectional champions there will be an opener when the Old Timers meet the local Colored Giants.

The winner of the sectional will go on to the regional.

OLD TIMERS PLAY
GIANTS IN OPENER

For real novelty in softball Greencastle people will want to see the game on Sunday evening that will be a preliminary to the final championship game of the sectional tournament. The game will be between the Old Timers and the Colored Giants and will get under way at 6:30.

The Colored Giants have been holding down the bottom of the Putnam League while the Old Timers have been out of practice since the good old sand lot days.

The roster for the Old Timers includes: G. Hurst as shortstop; F. Baker at 2nd; Splinter Myers, 3rd; John Sutherland, catcher; G. Stevens, 1st; "Bode" Williams, rightfielder; K. Gardner, left field; Ora Krider, centerfield; and also Reckley, Art Agnew, Dr. Coffman, and Bob Garl.

There are also several players that are being kept in the dark as a final surprise to even the team's manager. Better come early to get a seat at this game.
